NATIONAL COMPETITION COUNCIL

Section 1: Agency overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The National Competition Council (NCC) makes recommendations under the National Access Regime in Part IIIA of the *Competition and Consumer Act 2010* (CCA) and recommendations and decisions under the National Gas Law (NGL).

The National Access Regime promotes competition, efficiency and productivity in markets that depend on the use of services provided by monopoly infrastructure facilities. Within this regime the NCC may recommend the declaration of a service provided by a monopoly facility but only if all of the 'declaration criteria' specified in the CCA are met. Where a service is declared, the Australian Competition and Consumer Commission (ACCC) is empowered to arbitrate access disputes if the parties seeking access and the facility owner are unable to agree on access arrangements and prices.

As an alternative to the National Access Regime, state and territory governments may implement access regimes specific to their circumstances or implement (cooperatively) parallel regulation in each jurisdiction (as has occurred for the gas and electricity industries). The NCC is responsible for recommending whether a state or territory access regime should be certified as effective, with the result that services covered by that access regime are exempt from declaration under the CCA.

Under the NGL, the NCC recommends on whether particular natural gas pipeline systems should be subject to access regulation (covered). The NCC also recommends in relation to the price regulation and greenfields exemptions available under the NGL. As well as these recommendatory roles, the NCC is responsible for determining whether covered pipelines should be subject to full regulation or light regulation and for classifying pipelines as transmission or distribution pipelines.

Access regulation is a complex and evolving area of law involving significant private and public interests. In almost all cases the NCC must balance competing claims and interests with a view to ensuring an outcome that serves Australia's national interest. The NCC will continue to develop its capabilities to ensure it provides appropriate advice and makes recommendations and decisions that reflect the relevant law and economic and policy developments. In particular it will continue to ensure that its recommendations are provided within commercially meaningful time frames and in accordance with the CCA and the NGL and will continue to ensure its websites and other information resources remain relevant.

Note: The ACCC provides financial services to the NCC and has drawdown access to manage the NCC's finances.

1.3 BUDGET MEASURES

The NCC does not have any budget measures for 2012-13.

Section 2: Outcomes and performance information

2.1 OUTCOMES AND PERFORMANCE INFORMATION

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government agencies achieve the intended results of their outcome statements. Agencies are required to identify the programs which contribute to Government outcomes over the budget and forward years.

The NCC's outcome is described below, specifying the strategy, program objective, program deliverables and program key performance indicators used to assess and monitor the performance of the NCC.

Outcome 1: Competition in markets that are dependent on access to nationally significant monopoly infrastructure, through recommendations and decisions promoting the efficient operation of, use of and investment in infrastructure

Outcome 1 strategy

To achieve Outcome 1 the NCC will provide comprehensive, objective, timely and transparent recommendations and decisions that accord with the relevant law (including time limits) and good regulatory practice.

Pursuant to the CCA, the NCC provides recommendations to Ministers on applications for the declaration of services provided by monopoly infrastructure facilities and on the certification of state and territory access regimes.

Pursuant to the NGL, the NCC provides recommendations to Ministers on the coverage of natural gas pipeline systems and on price regulation and greenfields incentives, and makes determinations on the form of regulation and on the classification of natural gas pipeline systems.

Governments through the Council of Australian Governments agreed under the *Competition and Infrastructure Reform Agreement 2006* to submit applications for the certification of their existing access regimes and for the certification of energy access regimes by the end of 2010. They also undertook to achieve certification of any new access regimes as soon as practicable.

Governments submitted applications for the certification of all existing operational access regimes except one by the end of 2010. Western Australia's electricity network services access regime was certified in 2006. Applications for the certification of other energy access regimes have not been submitted.

National Competition Council Budget Statements

The NCC will continue to improve its processes and the structure of its recommendation reports and decisions. It will also continue to develop its published guidelines and other information in relation to access regulation to ensure these remain up-to-date.

Outcome expense statement

Table 2.1 provides an overview of the total expenses for Outcome 1.

Contributions to Outcome 1

Program 1.1: National Competition Council

Program objective

The NCC's objective is to provide advice to governments and make decisions on infrastructure access issues that accord with statutory requirements (including time limits) and good regulatory practice, and ensuring that advice meets requirements of decision making Ministers, such that Australia achieves a consistent approach to access regulation that promotes the efficient operation of, use of and investment in infrastructure thereby promoting effective competition.

Program expenses

There are no significant changes to estimates across the forward years.

Table 2.2: Program expenses

	2011-12 Revised budget \$'000	2012-13 Budget \$'000	2013-14 Forward year 1 \$'000	2014-15 Forward year 2 \$'000	2015-16 Forward year 3 \$'000

Total program expenses	2,874	2,819	2,842	2,863	2,889

Program deliverables

The NCC has the following deliverables:

- makes recommendations to Ministers pursuant to Part IIIA of the CCA in relation to applications for the declaration of services provided by monopoly infrastructure and the certification of state and territory access regimes;
- makes recommendations to Ministers pursuant to the NGL relating to the coverage of natural gas pipelines and on price regulation and greenfields incentives;
- makes decisions pursuant to the NGL relating to the form of regulation and classification of natural gas pipelines; and
- advises the Parliament on the operation of the National Access Regime in accordance with section 290(2) of the CCA.

Program key performance indicators

The NCC has the following key performance indicators:

- recommendations on declaration applications made within statutory time limits (consideration period of 180 days) and meet advice requirements of Ministers;
- recommendations on certification applications made within statutory time limits (consideration period of 180 days) and meet advice requirements of Ministers;
- recommendations and decisions under the NGL made within specified time limits and recommendations under the NGL meet advice requirements of Ministers;
- accessible information on all access regulation matters for which the NCC is responsible is provided on the NCC website;
- up-to-date and informative guidelines on all the NCC's areas of responsibility are maintained on the NCC website;

National Competition Council Budget Statements

- case law developments, legislative amendments and developments in the NCC's processes or policies are reflected in the NCC's information resources within 30 days; and
- the NCC's Annual Report to the Parliament includes a comprehensive report that meets the requirements of section 290(2) of the CCA and is provided within 60 days of the end of the financial year.

Section 3: Explanatory tables and budgeted financial statements

Section 3 presents explanatory tables and budgeted financial statements which provide a comprehensive snapshot of agency finances for the 2012-13 budget year. It explains how budget plans are incorporated into the financial statements and provides further details of the reconciliation between appropriations, program expenses, movements in administered funds, special accounts and government Indigenous expenditure.

3.1 EXPLANATORY TABLES

3.1.1 Movement of administered funds between years

The NCC does not have any administered funds.

3.1.2 Special accounts

The NCC does not have any special accounts.

3.1.3 Australian Government Indigenous Expenditure

The NCC does not have any Australian Government Indigenous Expenditure.

3.2 BUDGETED FINANCIAL STATEMENTS

3.2.1 Differences in agency resourcing and financial statements

There are no differences between agency resourcing and financial statements.

3.2.2 Analysis of budgeted financial statements

Budgeted departmental income statement

The NCC is budgeting for a break even result for 2012-13 and the forward estimates. This break even result will occur after adding back non-appropriated depreciation and amortisation expenses under the net cash appropriation arrangements which were initiated in the 2010-11 Budget.

The financial statements have been prepared on an Australian accounting standards basis.

Operating revenues

Total NCC revenue in 2012-13 is estimated to be \$2.8 million.

Operating expenses

Total expenses in 2012-13 are estimated to be \$2.8 million.

National Competition Council Budget Statements

Budgeted departmental balance sheet

In 2012-13 the NCC's equity position will be positive \$4.3 million.

Assets

The NCC's assets are predominantly financial assets consisting of other receivables and cash. The non-financial assets include leasehold improvements and plant and equipment assets.

Liabilities

The NCC's liabilities are mainly employee entitlements. There is no significant movement in total liabilities from 2011-12.
