# PRODUCTIVITY COMMISSION

## Section 1: Entity overview and resources

### 1.1 STRATEGIC DIRECTION STATEMENT

The Productivity Commission (the Commission) is the Australian Government's independent research and advisory body on a range of economic, social and environmental issues affecting the welfare of Australians. The Commission's work encompasses all sectors of the economy as well as social and environmental issues. Its activities cover all levels of government responsibility – Federal, State and Territory and Local.

As a review and advisory body, the Commission does not have responsibility for implementing government programs. It carries out inquiry, research, advising and incidental functions prescribed under the *Productivity Commission Act 1998*.

The Commission contributes to well-informed policy decision-making and public understanding on matters relating to Australia's economic performance and community wellbeing, based on independent and transparent analysis that takes a broad view encompassing the interests of the community as a whole, rather than just particular industries or groups. The Commission has four broad components of work:

- government commissioned projects;
- performance reporting and other services to government bodies;
- competitive neutrality complaints activities; and
- self-initiated research and statutory annual reporting.

In 2016-17 and the forward years, the Commission will continue to examine a variety of economic, social and environmental issues through its public inquiry and commissioned research. Commissioned projects underway and carrying over into 2016-17 include: public inquiries into *Intellectual Property Arrangements*; *Regulation of Agriculture*; *Regulation of Marine Fisheries and Aquaculture*; *Alternative Default Superannuation Fund Models*; *Data Availability and Use*; the *Education Evidence Base*; and a study into *Superannuation Competitiveness and Efficiency*.

The Commission is providing cross-jurisdictional reporting to the Council of Australian Governments (COAG) on performance of government services; indicators of indigenous disadvantage; and expenditure on services to Indigenous Australians. The Commission is also expecting to commence reviews related to the National Water Initiative and the Murray-Darling Basin Plan (and associated water resource plans).

The Australian Government Competitive Neutrality Complaints Office (AGCNCO) is an autonomous office located within the Commission. It receives and investigates complaints, and advises the Treasurer on the application of competitive neutrality arrangements. AGCNCO also provides informal advice on, and assists entities in, implementing competitive neutrality requirements.

The Commission has a mandate to undertake research to complement its other activities. This self-initiated research currently includes work on: *Indigenous Primary School Education Outcomes: Key Contributors*; and *Disruptive Technologies: What do governments need to do?* The Commission's most recent research publications include papers on: *Developments in Anti-Dumping Arrangements*; and *Housing Decisions of Older Australians*. A full list of the Commission's research reports and supporting research is provided on the Commission's website.

## 1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the Commission.

Information in this table is presented on a resourcing (i.e. appropriations/cash available) basis, whilst the 'Budgeted expenses for Outcome 1' table in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

## Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The Commission's outcome is described below, specifying the strategy, program objective, program deliverables and program key performance indicators used to assess and monitor the performance of the Commission.

**Note:**

From 1 July 2015, performance reporting requirements in the Portfolio Budget Statements sit alongside those required under the enhanced Commonwealth performance framework. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports from October 2016 – to provide an entity's complete performance story.

**Table 2.2: Performance criteria for Outcome 1**

The table below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2016-17 Budget measures have created new programs or materially changed existing programs.
