**USER GUIDE  
TO THE  
PORTFOLIO ADDITIONAL  
ESTIMATE STATEMENTS**

# **USER GUIDE**

The purpose of the 2015-16 Portfolio Additional Estimates Statements (PAES), like that of the Portfolio Budget Statements, is to inform Senators and Members of Parliament of the proposed allocation of resources to Government outcomes by entities within the portfolio. The focus of the PAES differs from the Portfolio Budget Statements in one important aspect. While the PAES include an Entity Resource Statement to inform Parliament of the revised estimate of the total resources available to an entity, the focus of the PAES is on explaining the changes in resourcing by outcome(s) since the Budget. As such, the PAES provides information on new measures and their impact on the financial and/or non-financial planned performance of programmes supporting those outcomes.

The PAES facilitate understanding of the proposed appropriations in Appropriation Bills (Nos. 3 and 4) 2015-16. In this sense the PAES is declared by the Additional Estimates Appropriation Bills to be a 'relevant document' to the interpretation of the Bills according to s.15AB of the *Acts Interpretation Act 1901*.

Whereas the *Mid-Year Economic and Fiscal Outlook 2015-16* is a mid-year budget report which provides updated information to allow the assessment of the Government's fiscal performance against its fiscal strategy, the PAES update the most recent budget appropriations for entities within the portfolio.

# Structure of the Portfolio Additional Estimates Statements

The PAES are presented in three parts with subsections.

## User guide

Provides a brief introduction explaining the purpose of the PAES.

## Portfolio overview

Provides an overview of the portfolio, including a chart that outlines the outcomes for entities in the portfolio.

## Entity additional estimates statements

A statement (under the name of the entity) for each entity affected by Additional Estimates.

<b>Section 1: Entity overview and resources</b>	This section details the <b>changes</b> in total resources available to an entity, the impact of any measures since Budget, and impact of Appropriation Bills Nos. 3 and 4.
<b>Section 2: Revisions to outcomes and planned performance</b>	This section details <b>changes</b> to Government outcomes and/or <b>changes</b> to the planned performance of entity programmes.
<b>Section 3: Explanatory tables and budgeted financial statements</b>	This section contains updated explanatory tables on special account flows and staffing levels and revisions to the budgeted financial statements.

## **Section 1: Entity overview and resources**

### **1.1 STRATEGIC DIRECTION STATEMENT**

There has been no significant change to the strategic direction of the Department of the Treasury (the Treasury) from that outlined in the *Portfolio Budget Statements 2015-16* (pages 16-18).

As a result of the Administrative Arrangements Orders in September 2015 the Northern Australian Infrastructure Incentive Facility was transferred from the Treasury to the Department of Industry, Innovation and Science. The Administrative Arrangements Orders also transferred responsibility for the administration of the Clean Energy Finance Corporation (CEFC) special account from the Treasury to the Department of the Environment.

The Treasury is seeking an additional \$1.8 million in departmental funding through Appropriation Bill (No. 3) 2015-16. This comprises an additional \$1.2 million for the Asian Infrastructure Investment Bank measure and \$0.7 million for the capability review of the Australian Securities and Investments Commission measure outlined in the *Mid-Year Economic and Fiscal Outlook 2015-16*. This additional funding is offset by a reduction of \$0.1 million relating to the Public Sector Superannuation Accumulation Plan administration fees as outlined in the *Mid-Year Economic and Fiscal Outlook 2014-15*.

The Treasury is seeking an additional \$1.4 million in administered funding through Appropriation Bill (No. 3) 2015-16 to provide additional services under the Australian Small Business Advisory Service (ASBAS) programme as outlined in the *Mid-Year Economic and Fiscal Outlook 2015-16*.

### **1.2 ENTITY RESOURCE STATEMENT**

The Entity Resource Statement details the resourcing for the Treasury at Additional Estimates. Table 1.1 outlines the total resourcing available from all sources for the 2015-16 Budget year, including variations through Appropriation Bill Nos. 3 and 4, Special Appropriations and Special Accounts.

## 3.2 BUDGETED FINANCIAL STATEMENTS

### 3.2.1 Analysis of budgeted financial statements

The Treasury is budgeting for a break-even operating result, after non-appropriated expenses such as depreciation are removed, in 2015-16.

The Treasury has a sound financial position and has sufficient cash reserves to fund provisions, payables and asset replacement, as they fall due.

## **Notes to the financial statements**

### **Accounting policy**

The Treasury's budgeted financial statements have been prepared on an accrual accounting basis having regard to statements of accounting concepts, and in accordance with:

- the Government's financial budgeting and reporting framework; and
- Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board.

### **Departmental and administered items**

Under the Government's accrual budgeting framework, and consistent with Australian Accounting Standards, transactions that departments control (departmental transactions) are separately budgeted for, and reported on, from transactions departments do not have control over (administered transactions). This ensures that departments are only held accountable for the transactions over which they have control.

# AUSTRALIAN COMPETITION AND CONSUMER COMMISSION

## Section 1: Entity overview and resources

### 1.1 STRATEGIC DIRECTION STATEMENT

The Australian Competition and Consumer Commission (ACCC) is seeking an additional \$2.5 million in departmental outputs through Appropriation Bill (No. 3) 2015-16 and \$11.6 million in equity injections through Appropriation Bill (No. 4) 2015-16.

These relate to measures outlined in the *Mid-Year Economic and Fiscal Outlook 2015-16* for the Agriculture New Policy Proposal *Stronger Farmers, Stronger Economy – a fairer go for farm business*, and the reappropriation of 2013-14 equity related to the ACCC's Litigation Contingency Fund.

Accordingly, whilst there has been no significant change to the strategic direction of the ACCC from that outlined in the *Portfolio Budget Statements 2015-16* (pages 89-91), an additional priority for 2015-16 is compliance with, and enforcement of, the *Competition and Consumer Act 2010* in the agriculture sector.

### 1.2 ENTITY RESOURCE STATEMENT

The Entity Resource Statement details the resourcing for the ACCC at Additional Estimates. Table 1.1 outlines the total resourcing available from all sources for the 2015-16 budget year, including variations through Appropriation Bill Nos. 3 and 4, Special Appropriations and Special Accounts.

## Section 2: Revisions to outcomes and planned performance

### 2.1 OUTCOMES AND PERFORMANCE INFORMATION

The additional priority of compliance and enforcement of the *Competition and Consumer Act 2010* (CCA) in the agriculture sector will be achieved through increased engagement with the agriculture sector, increased investigations of possible breaches of the CCA and, as appropriate, enforcement action and outcomes. Accordingly, there is no change to the ACCC's outcome statement, objectives, outcome strategies and deliverables, and the performance information included in the Portfolio Budget Statements 2015-16 (pages 94-102) will require the ACCC to report on the additional work that the ACCC undertakes and the outcomes achieved.

Prepared on Australian Accounting Standards basis.

## **Notes to the financial statements**

### **Accounting policy**

The budgeted financial statements have been prepared on an accrual accounting basis having regard to statements of accounting concepts, and in accordance with:

- the Government's financial budgeting and reporting framework; and
- Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board.

### **Departmental and administered items**

Entity assets, liabilities, revenues and expenses are those items that are controlled by the ACCC that are used by the ACCC in producing its programme and include:

- computers, plant and equipment and building fitout used in providing goods and services;
- liabilities for employee entitlements;
- revenue from appropriations or independent sources in payment for the departmental programme; and
- employee, supplier and depreciation expenses incurred in providing entity programme.

Administered items are those items incurred in providing programmes that are controlled by the Government and managed, or overseen by the ACCC on behalf of the government. Administered revenues include fees and fines.

### **Departmental revenue**

Revenue from government represents the purchase of outputs from the ACCC by the Government and is recognised to the extent that it has been received into the ACCC's bank account.

Revenue from other sources, representing sales from goods and services, is recognised at the time that it is imposed on customers.

### **Departmental expenses — employees**

Payments and net increases in entitlements to employees for services rendered in the financial year.

### **Departmental expenses — suppliers**

Payments to suppliers for goods and services used in providing entity programmes.

### **Departmental expenses — depreciation and amortisation**

Depreciable property, plant and equipment, buildings and intangible assets are written-off to their estimated residual values over their estimated useful life, using the straight-line calculation method.

### **Departmental assets — financial assets**

The primary financial asset relates to receivables. Financial assets are used to fund the ACCC's capital programme, employee entitlements, creditors and to provide working capital.

### **Departmental assets — non-financial assets**

These items represent future benefits that the ACCC will consume in producing outputs. The reported value represents the purchase paid less depreciation incurred to date in using the asset.

### **Departmental liabilities — provisions and payables**

Provision has been made for the ACCC's liability for:

- employee entitlements arising from services rendered by employees. The liability includes unpaid annual leave and long service leave;
- making good leased premises and lease incentives;
- onerous lease for the Nishi building in New Acton, Canberra; and
- unpaid expenses and unearned revenue as at balance date.

## Section 1: ASIC overview and resources

### 1.1 STRATEGIC DIRECTION STATEMENT

There has been no significant change to the strategic direction of the Australian Securities and Investments Commission (ASIC) from that outlined in the Treasury *Portfolio Budget Statements 2015-16* (pages 163-164).

ASIC is also seeking an additional \$0.663m for *Corporations Act 2001* unclaimed monies interest through Appropriation Bill (No. 3) 2015-16. Details of these measures appear in the *Mid-Year Economic and Fiscal Outlook 2015-16*.

This statement shows the financial position of ASIC. It helps decision makers to track the management of ASIC's assets and liabilities.

ASIC's budgeted equity (or net asset position) for 2015-16 is \$91.7 million.

The 2015-16 equity position reflects the cumulative effect of capital injections of \$5.3 million received during 2015-16.

#### **Departmental statement of changes in equity — summary of movement (Budget year 2015-16)**

This statement shows the changes in the equity position of ASIC. It helps decision-makers to track the management of ASIC's equity.

#### **Budgeted departmental statement of cash flows (for the period ended 30 June)**

The budgeted statement of cash flows provides important information on the extent and nature of cash flows by categorising them into expected cash flows from operating activities, investing activities and financing activities.

#### **Departmental capital budget statement (for the period ended 30 June)**

This statement shows details of capital appropriations received by ASIC. It helps decision-makers to track the acquisition of new non-financial assets.

#### **Statement of asset movements — Departmental (2015-16 Budget year)**

This statement shows details of gross asset movements during the year. It helps decision-makers to analyse movements of non-financial assets.

**Schedule of budgeted income and expenses administered on behalf of Government (for the period ended 30 June)**

The schedule of budgeted income and expenses administered on behalf of government shows the revenue and expenses associated with the collection of revenue under the *Corporations Act 2001* (Corporations Act) and ASIC's responsibilities in administering unclaimed monies under the *Banking Act 1959* (Banking Act), the *Life Insurance Act 1995* (Life Insurance Act) and s.77 of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act).

Other non-taxation revenue represents the amount of fees and charges budgeted to be levied under the *Corporations Act 2001* and estimated receipts of unclaimed monies under the Banking Act, the Life Insurance Act and the Corporations Act.

Expenses represent budgeted payments of unclaimed monies, refund of overpaid fees and charges levied under the Corporations Act, bad debt expense, administered advertising expenses and grant payments to registered insolvency practitioners to investigate breaches of directors' duties and fraudulent conduct.

**Schedule of budgeted assets and liabilities administered on behalf of Government (as at 30 June)**

The amount shown for receivables in 2015-16 and in the forward estimates is the estimated amount of fees and charges under the Corporations Act remaining unpaid at 30 June.

The amounts shown in other payables for 2015-16 and the forward estimates represent the estimated amount of refunds relating to the overpayments of annual review and other fees under the Corporations Act, estimated claims payable under the Banking Act and the Life Insurance Act and companies unclaimed monies under s.77 of the PGPA Act.

## **Notes to the Financial Statements**

### **Basis of accounting**

The budgeted financial statements have been prepared on an Australian Accounting Standards basis.

### **Budgeted entity financial statements**

Under the Australian Government's accrual budgeting framework, and consistent with Australian Accounting Standards, transactions that agencies control (departmental transactions) are separately budgeted for and reported on from transactions that agencies do not have control over (administered transactions). This ensures that agencies are only held fully accountable for the transactions over which they have control.

Departmental items are those assets, liabilities, revenues and expenses in relation to an entity or authority that are controlled by the entity. Departmental expenses include employee and supplier expenses and other administrative costs which are incurred by the entity in providing its goods and services.

Administered items are revenues, expenses, assets and liabilities that are managed by an entity or authority on behalf of the Australian Government according to set government directions. Administered expenses and administered revenues include fees, fines and expenses that have been earmarked for a specific purpose by the Australian Government.

### **Appropriations in the accrual budgeting framework**

Under the Australian Government's accrual budgeting framework, separate annual appropriations are provided for:

- departmental appropriations representing the Australian Government's purchase of programmes from agencies;
- departmental capital appropriations for investments by the Australian Government for either additional equity or loans in agencies;
- administered expense appropriations for the estimated administered expenses relating to an existing outcome or a new outcome; and
- administered capital appropriations for increases in administered equity through funding non-expense administered payments.

## **Departmental**

### *Asset valuation*

ASIC has adopted fair value as a basis for valuing its leasehold improvements and plant and equipment. Valuation is conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date.

### *Asset recognition threshold*

Purchases of property, plant and equipment are recognised initially at cost in the balance sheet, except for purchases costing less than \$2,000, which are expensed in the year of acquisition.

### *Leases*

A distinction is made between finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to ownership of leased non-current assets, and operating leases, under which the lessor effectively retains substantially all such risks and benefits.

Where a non-current asset is acquired by means of a finance lease, the asset is capitalised at the lower of fair value or the present value of minimum lease payments at the inception of the lease and a liability recognised for the same amount. Leased assets are amortised over the period of the lease. Lease payments are allocated between the principal component and the interest expense.

Operating lease payments are charged to the comprehensive income statement on a basis that is representative of the pattern of benefits derived from the lease assets.

### *Depreciation and amortisation*

Computer equipment and plant and equipment is depreciated using the straight-line method. Leasehold improvements are amortised on a straight-line basis over the lesser of the estimated life of the improvements or the unexpired period of the lease.

Depreciation/amortisation rates (useful lives) are reviewed at each balance date and necessary adjustments are recognised receivables.

### *Receivables*

A provision is raised for any doubtful debts based on a review of the collectability of all outstanding accounts as at year-end.

Bad debts are written-off during the year in which they are identified.

*Provisions and payables*

Provisions and payables represent liabilities for miscellaneous accruals and employee benefits, including accrued salary and leave entitlements, provisions for making good leased premises and lease incentives. No provision for sick leave is required as all sick leave is non-vesting.

## Section 1: Entity overview and resources

### 1.1 STRATEGIC DIRECTION STATEMENT

There has been no significant change to the strategic direction of the Australian Taxation Office (ATO) from that outlined in the *Portfolio Budget Statements 2015-16* (page 191).

The ATO is seeking an additional \$46.2 million in departmental funding through Appropriation Bill (No. 3) 2015-16. This relates to an additional \$36.0 million for the following measures as outlined in the *Mid-Year Economic and Fiscal Outlook 2015-16*:

- Enhanced Welfare Payment Integrity – non-employment income data matching (\$0.7 million);
- Reducing red tape – improvements to data and analytics infrastructure of the Australian Taxation Office (\$9.5 million); and
- Tax administration – Single Touch Payroll Reporting (\$25.8 million).

This funding also includes the Growing Jobs and Small Business - streamlining business registration measure (\$5.9 million) outlined in Budget Paper No. 2, *Budget Measures 2015-16* and an adjustment to reflect movement of funds (\$5.5 million), offset by a reduction of \$1.2 million relating to the Public Sector Superannuation Accumulation Plan administration fees outlined in the *Mid-Year Economic and Fiscal Outlook 2014-15*.

The ATO is also seeking an additional \$74.0 million as an equity injection through Appropriation Bill (No. 4) 2015-16. This relates to an additional \$72.5 million for the following measures as outlined in the *Mid-Year Economic and Fiscal Outlook 2015-16*:

- Higher Education Loan Programme – strengthened compliance (\$1.6 million);
- Reducing red tape – improvements to data and analytics infrastructure of the Australian Taxation Office (\$11.4 million); and
- Tax administration – Single Touch Payroll Reporting (\$59.5 million).

This funding also includes the Growing Jobs and Small Business - streamlining business registration measure (\$2.4 million) outlined in Budget Paper No. 2, *Budget Measures 2015-16* and an adjustment to reflect the re-appropriation of \$0.9 million from prior year's appropriation before it is repealed. The funding is offset by a reduction of \$1.8 million of prior year's appropriation.

## **Notes to the financial statements**

### **Basis of accounting**

The ATO's budgeted financial statements have been prepared on an accrual basis.

## **Notes to the departmental statements**

The departmental financial statements, included in Tables 3.2.1 to 3.2.6 have been prepared on the basis of Australian Accounting Standards and Department of Finance guidance for the preparation of financial statements.

The budget statements and estimated forward years have been prepared to reflect the following matters.

### **Cost of administering goods and services tax**

Departmental statements include the estimated costs of administering the goods and services tax (GST) pursuant to the 'intergovernmental agreement on the reform of Commonwealth-State Financial Relations'. The GST revenue is collected on behalf of the States and Territories which agree to compensate the Australian Government for the agreed GST administration costs.

The GST administration costs are reported in the annual GST Administration Performance Report.

## **Notes to the administered statements**

The administered financial statements at Tables 3.2.7 to 3.2.9 have been prepared on the basis of Australian Accounting Standards and Department of Finance guidance for the preparation of financial statements.

The standards require that taxation revenues are recognised on an accrual basis when the following conditions apply:

- the taxpayer or the taxpayer group can be identified in a reliable manner;
- the amount of tax or other statutory charge is payable by the taxpayer or taxpayer group under legislative provisions; and
- the amount of the tax or statutory charge payable by the taxpayer or taxpayer group can be reliably measured, and it is probable that the amount will be collected.

The amount of taxation revenue recognised takes account of legislative steps, discretion to be exercised and any refunds and/or credit amendments to which the taxpayers may become entitled.

### **Recognition of taxation revenue**

Taxation revenue is recognised when the Government, through the application of legislation by the ATO and other relevant activities, gains control over the future economic benefits that flow from taxes and other statutory charges. This methodology, known as the Economic Transaction Method (ETM), relies on the estimation of probable flows of taxes from transactions which have occurred in the economy, but have not yet been reported, and are likely to be reported to the ATO through an assessment or disclosure.

However, in circumstances when there is an ‘inability to reliably measure tax revenues when the underlying transactions or events occur’, the accounting standards permit an alternative approach known as the Taxation Liability Method (TLM). Under this basis, taxation revenue is recognised at the earlier of when an assessment of a tax liability is made or payment is received by the ATO. This recognition policy means that taxation revenue is generally measured at a later time than would be the case if it were measured under the ETM method.

In accordance with the above revenue recognition approach, the ATO uses ETM as the basis for revenue recognition, except for income tax for individuals, companies, superannuation funds, superannuation surcharge and the minerals resource rent tax (repealed September 2014) which are recognised on a TLM basis.

### **Items recognised as reductions to taxation revenue**

The following items are recognised as reductions (increases) to taxation revenue and not as an expense:

- refunds of revenue; and
- increase (decrease) in movement of provision for credit amendments.
